

Road Commission of Macomb County

Request for Proposal for Traffic Signal System Operation

DESCRIPTION:

The Road Commission of Macomb County (RCMC) is requesting qualifications and proposal for providing engineering services for countywide traffic signal operations. The requested services are for two Civil Engineers and one Information Technologies/Intelligent Transportation System (IT/ITS) Technician who will perform work at the Traffic Operations Center in the RCMC Administration Building as well as signal locations throughout the county. Contract employees will be expected to report to work daily except for weekends and holidays on the same schedule as observed by the RCMC.

Proposed candidates need not be employed with the proposing firm at the time the proposal is submitted.

If a selected contract employee becomes unavailable while under contract, due to unforeseen circumstances, the contract may be terminated. Replacement of the employee will be contingent upon the outcome of a formal candidate evaluation defined herein. The contract will be contingent upon the specific candidate.

Proposals will only be accepted from firms that have obtained the request directly from the RCMC.

Contact the Project Engineer via e-mail to obtain an electronic copy of the request.

All questions regarding the preparation of proposals must be submitted via e-mail message to the RCMC contact listed below no later than 11:00 AM EST on Wednesday, May 5, 2010. All questions and responses will be distributed via e-mail to all parties who have requested the RFP.

Proposals are due 11:00 AM EST, Wednesday, May 12, 2010.

Submit proposal electronically in *.pdf format via e-mail to the RCMC Project Engineer identified below. The RCMC reserves the right to reject any or all proposals.
